PROFILE SUMMARY

Flutter Mobile Application Developer with 2+ years of experience designing, building, and deploying enterprise-grade Android and iOS applications to the Play Store and App Store. Expert in state management (BLoC/Cubit, GetX, Provider), Clean Architecture, REST APIs, WebSockets, and production release cycles. Solid foundation in React.js and Java for web application development.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, Android, iOS, Firebase (FCM, Auth, Firestore)

Architecture & State Management: Clean Architecture, MVVM, MVC, BLoC/Cubit, GetX, Provider

Backend Integration: REST APIs, WebSockets, JWT Authentication, Stripe, EaseBuzz, Postman

Web Development: React.js, JavaScript (ES6+), HTML5, CSS3

Languages & Databases: Dart, Java, SQL (MySQL, Oracle)

Tools & IDEs: Android Studio, Xcode, Git, GitHub, Figma, Flutter DevTools

Testing & CS Fundamentals: Unit Testing, Widget Testing, DSA, OOP, DBMS, OS, Computer Networks

WORK EXPERIENCE

Neural Arc — Mobile Application Developer,

Jan 2026 – Present

Neural Arc builds AI products and solutions that help businesses automate, innovate, and grow with smarter technology.

Helium AI — Chat Application ([Play Store](#)) ([App Store](#))

- Owned end-to-end delivery of the Helium AI chat app, from UI/UX implementation to production release on Play Store and App Store.
- Engineered real-time conversational AI using **WebSockets** with auto-reconnect and message queuing, integrated Google Sign in, Sign in with Apple and **JWT-based authentication** with secure session management and token refresh.
- Optimized performance via **Flutter DevTools** profiling, pagination, and multi-layer local caching; implemented platform-specific code (iOS/Android) to deliver a truly native look and feel.

Helium AI — Admin Panel

- Built a Flutter admin panel using **Clean Architecture + Cubit** to monitor product and operational work, reducing manual analysis effort by ~20%.
- Designed interactive analytics dashboards with **fl_chart** and **CustomPaint** to visualize user growth, credit usage, Stripe payments, and Google Analytics insights; integrated **Firebase Cloud Messaging (FCM)** for real-time user alerts.
- Optimized with lazy loading, chunk-based pagination, and cache-then-network with auto-refresh — cut dashboard load time by ~20% and improved responsiveness by ~40%.

JIL Information Technology Ltd. (JILIT) — Mobile Application Developer

Aug 2024 – Dec 2025

Jaypee Group's CMMI Level 3 certified IT services arm delivers enterprise software solutions and digital transformation services.

JIIT Scholar Online ([Play Store](#)) ([App Store](#))

- Led end-to-end module delivery — UI/UX, Flutter development, API integration, payment integration, and Play Store / App Store deployment.
- Built OTP-based authentication and core student modules (attendance tracking, faculty registration, feedback, student reports, hostel/medical records); improved data retrieval efficiency by ~30%.
- Integrated **EaseBuzz** payment gateway and translated Figma designs into pixel-perfect UIs using **GetX** — reduced payment failures by ~25% and delivered project ~20% faster.

JILIT-ESS (Employee Self-Service) ([Play Store](#)) ([App Store](#))

- Integrated EaseBuzz payment gateway in collaboration with backend teams, reducing payment failures by ~25%.
- Transformed Figma designs into pixel-perfect responsive Flutter UIs using GetX, improving UI responsiveness by ~40% and helping deliver the project ~20% faster.

Olympus-Wellness ([Play Store](#)) ([App Store](#))

- Built a psychotherapy Flutter app enabling appointment booking, doctor profiles, and secure EaseBuzz payments using GetX state management.
- Handled API integration with proper error handling and local caching; collaborated with backend to ensure reliable data flow across the app.

EDUCATION

B.Tech in Computer Science Engineering, Jaypee University of Engineering and Technology

2020 – 2024

Senior Secondary (Class XII), New Life Public School

2019 – 2020

ACHIEVEMENTS & CERTIFICATIONS

Value Contribution Award (JILIT) | McKinsey.org Forward Program | UX Virtual Experience Programme | JavaScript Basics
